INTERNSHIPS

AI-ML Virtual Intern, EduSkills (Supported by Google for Developers)

Apr 2025 – Jun 2025

- Completed a 10-week internship focused on core AI/ML concepts, model building, and practical hands-on exercises aligned with industry standards.

Projects

Online Art Gallery Platform

Tech Stack: React (Vite), Spring Boot, MySQL, JWT, Razorpay, Vercel, Render, Railway

- Developed a full-stack online art gallery platform that allows users to browse, view, and purchase artworks through a responsive and user-friendly interface.
- Implemented secure user authentication using **JWT**, along with role-based access for users and admins.
- Built RESTful APIs with **Spring Boot** for artwork management, orders, and user operations.
- Created an admin dashboard for uploading artworks, editing product details, and managing user data.
- Integrated **Razorpay Payment Gateway** for smooth and secure checkout.
- Deployed the frontend on **Vercel**, backend on **Render**, and database on **Railway**, ensuring reliable, scalable cloud hosting.

News aggregator website

- HTML, CSS, JAVASCRIPT ,React, ,SpringBoot,MYSQL
 - A news aggregator app consolidates articles and headlines from multiple sources into a single platform. Users can filter news by categories, such as technology, politics, or sports, and save articles for later reading. The system integrates with APIs to fetch up-to-date content and uses algorithms to recommend articles based on user preferences. It ensures an engaging and personalized news experience.

SOFTWARE SKILLS

- Web Development : HTML,CSS, JavaScript, Bootstrap, React.js, Node.js, API's .
- Programming Languages : C, Java.
- Database : MYSQL
- Version Control : Git and Github.
- Tools : VS Code , Eclipse .

Certifications

- Oracle Cloud Infrastructure (OCI) AI Foundations Associate .
- Aviatrix Multicloud Network Associate.
